Tips for Velvet Yarn

You will want to make the yarn into balls. The first skein of yarn was in 4 parts and got all tangled. It took forever to untangle it all.

Also, the yarn is tied together with tiny knots so if the skein has come apart you can tie a tight tiny knot.

Practice first using a tight tension. When you change colors tie the color you are ending in a knot. The yarn tends to unravel itself.

Row 3-11: Repeat row 2 until you have 10 rows.

On the last stitch before you change colors, wrap over with the **new color** and finish normally and then chain 2 with the new color and continue the pattern. Do this each time you change colors.
